Audrey Marie Stein

In 2004, Audrey Marie Stein established the Grace Dee May Museum. Audrey believed that she had been richly blessed by the **Grace** of God. Audrey's nickname was **Dee** and she had been born in the month of **May**. So, as Director of the Foundation, she named the Museum the **Grace Dee May**.

**"The fate of unborn millions will now depend, under God,  
on the courage and conduct of this army."**

**We have, therefore, to resolve to conquer or die."**  
– George Washington, Freemason & America's First President

## Courage & Conduct

2026 will be a year like no other. Certainly, it will be a year of celebration as, on July 4th, we'll recognize and honor the patriots who overcame countless challenges to transform 13 disparate colonies into the United States of America.

In the annals of history, 250 years is a scant period of time. Yet, when representatives of the colonies struggled to agree on a Declaration of Independence – the world changed forever. Never before in history had appointed representatives, nine of which were members of the Masonic Fraternity, bravely declared, "We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty and the pursuit of Happiness."

As we turn the page on a New Year, we've taken a look back at some of the life stories of Freemasons that our Museum has shared with our members and the public. Masons who have made their mark with courageous action on historic battlefields from Lexington and Concord to their performances on the fields of sports. Other Masons have led our citizens to break the color barriers, explored the Wild West and risked their lives to further the exploration of outer space. We've also shared stories of the writers, artists, filmmakers, and musicians whose works have brought beauty and inspiration to the world.

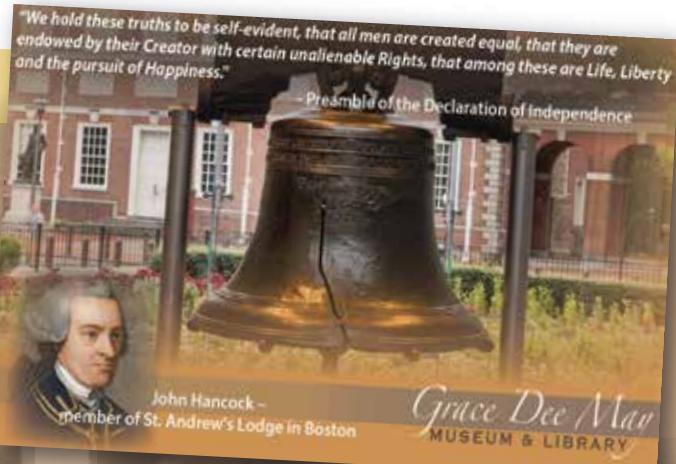

Being January, we will look to our past 250 years and look forward to the future. Of course, there is some confusion as to what we should call this historic anniversary. Is it America's "Semicentennial" or the "Sestercentennial", the "Biscesquicentennial" or, perhaps, the "Quarter Millennium"? No matter what title individuals may call this year – may your year be filled with good health, curiosity, and positivity!
